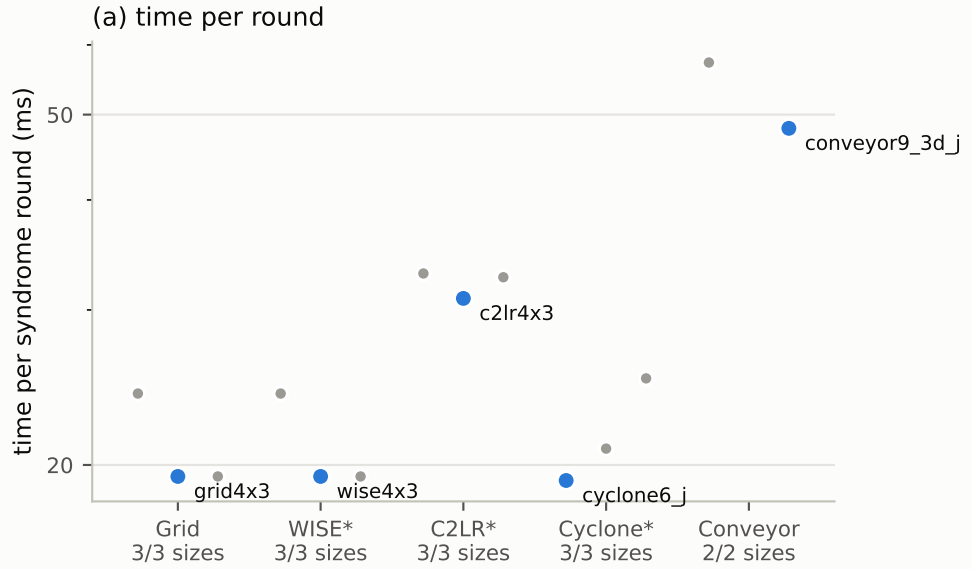
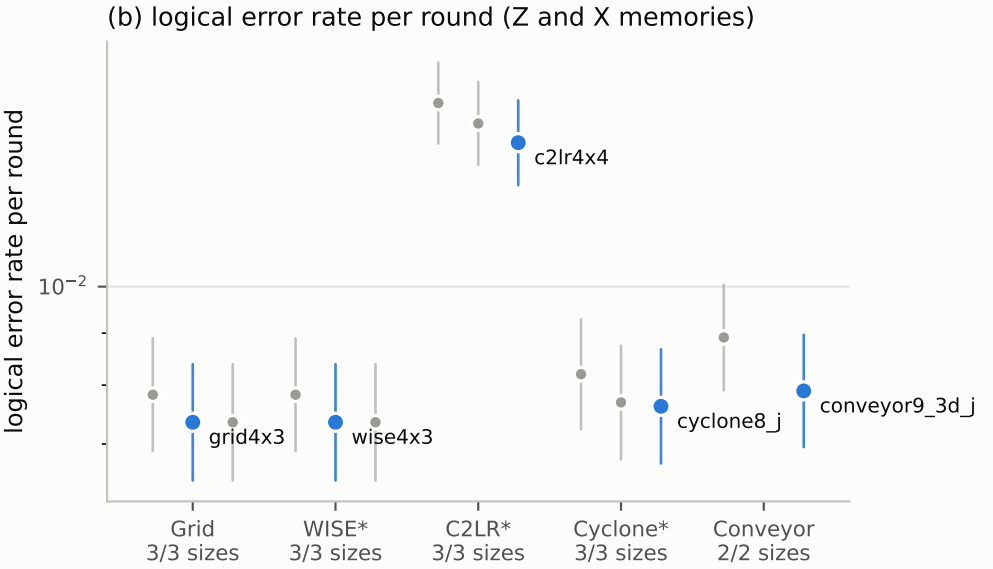
6.6.6 colour code [[7,1,3]], 3 rounds, 10 ions





* WISE: same program and time as Grid until WISE's broadcast rules exist
* C2LR: compiled by the baseline C2LR router; every two-qubit gate merges and splits its pair, priced at physics@2's 128 us and 1 quantum each, as every family's merge is
* Cyclone: compiled without rigid rotation (qccdc has no Cyclone scheduler yet): an upper bound
